Organising and **leading** an international Workcamp is an interesting challenge for those who enjoy working together with young people from all over the world and which are willing to take over responsibility.

For young and older people more **interested in the technical side** of the works than in the organisation of the social life Open Houses offers the possibility to support the technical leading of Workcamps and Building Weeks in the framework of Mid Term Volunteering. This could be an interesting task for **skilled craftsmen**, for those which have own **manual experiences** or for those which want to **train their organisational skills**.

The leading of the technical side of the Workcamps lies in the hands of one of Open Houses' technical leaders. The volunteer which supports him can overtake a part of the technical leaders' responsibility. Depending on the wishes, the skills and the experience of the volunteer this can be the organisation of the schedule of the working day, the responsibility for tools and material, the **leading of a smaller group of volunteers** or more special tasks.

For students of architecture, building engineering and similar fields this kind of voluntary service can be recognized as internship for their studies. Open Houses will offer the necessary certificates.

Because of the big variety of the individual curricula and experiences Open Houses will create for every volunteer an individual plan of the voluntary service, including introduction, supervision and evaluation.

Per every week the volunteer supports the technical leader s/he receives $50 \in$ pocket money. S/he does not have to pay for food and accommodation and can take part in all cultural activities and excursions of the camps.
